

I've got to lie down awhile -

Write me a note, I hope my departure don't  
~~be~~ bring you down - is it alright if I go? -  
Tell me -

Janine not taken mushrooms yet - I have  
23 left - I gave 8 to a painter friend.

All the young kids lately are shooting (w/needle)  
a drug called Methedrine - an amphetamine  
semi-hallucinogen - haven't tried it yet. It's  
all the vogue.

Lee - I don't know if I should stay  
here & rave & stream politically, & give big  
Carnegie hall readings & Harvard readings - but I  
think a quiet silly trip to Greece would <sup>be</sup> better  
in the long run.

Love.

However,

Allen

Regards to Paul -
